

magical motifs

The *Real Weddings* team love to see stylish and original motifs used in imaginative ways. Over the years we've seen some beautiful motifs including a chandelier for a black tie wedding, seashells for a beach wedding and a grape motif for a wedding held at a vineyard.

We ooh-ed and aahh-ed over this palm tree motif from a wedding in the Bahamas, which was creatively placed on passport holders, luggage tags, place settings and photo album favours.

We hope you find it inspiring too! And don't miss our entire story on this romantic destination Bahamas wedding in our Travel and Honeymoon feature in our December issue.
